With the **CAPTURE! Handheld**, exhibitors can focus on building connections, maximizing sales opportunities, and proving event ROI—all with an intuitive, hassle-free device.

Developers Kit for CAPTURE!

CAPTURE! MOBILE DEVELOPER'S KIT - INTEGRATE LEAD RETRIEVAL YOUR WAY

The **CAPTURE! Mobile Developer's Kit** is designed for exhibitors who prefer to use their own lead retrieval equipment while still accessing attendee badge data in real-time. This kit provides the necessary tools to retrieve encrypted badge data, enabling seamless integration into your custom lead capture system.
For advanced users only – developer required!

KEY FEATURES & BENEFITS:

- Custom Integration
- Flexible Use
- Seamless Event Data Access
- Designed for Tech-Savvy Teams

For technical specifications and implementation details, refer to our Developer Documentation.

PRIVACY NOTICE - Attendee badges are encrypted. Badges may only be read by official lead retrieval equipment and mobile app. If using outside equipment, a developer's kit is necessary to read the badge and can be ordered at **https://order.spargocapture.com/aix2026**
