Introduction

This document outlines the general guidelines that will apply to Clinical Trial Showcases at the 68th ASH Annual Meeting and Exposition. These guidelines are to be construed as part of the policies for exhibitors at the ASH annual meeting and as part of the contract for the Clinical Trial Showcase. All Clinical Trial Showcase sponsors must comply with these standards as well as all other requirements applicable to exhibitors at an ASH annual meeting.

Eligibility for Clinical Trial Showcase

Only exhibitors with secured and contracted exhibit space at the 68th ASH Annual Meeting and Exposition are eligible to secure a Clinical Trial Showcase. Applicants must be in good standing with ASH.

In-person exhibitors may contract for in-person Clinical Trial Showcase for \$18,000. In-person exhibitors may present a pre-recorded version of their in-person presentation on the virtual meeting platform for an additional fee of \$5,000.

Virtual exhibitors may contract a pre-recorded Clinical Trial Showcase on the virtual meeting platform for \$18,000. Virtual exhibitors without an in-person exhibit may only contract for virtual presentations and may not present in-person Clinical Trial Showcase in New Orleans.

Any applicants with outstanding balances with ASH must settle their balances before their applications will be considered. If an accepted applicant cancels or defaults on exhibit space at the 68th ASH Annual Meeting and Exposition, the contracted session will be revoked and any cancellation penalty at that date will apply.

Possible Penalties for Violating ASH Policies

Failure to conform to ASH's policies may result in penalties, which may include but are not limited to the following:

- The violating company's priority points will be reduced.
- The company may not participate as an exhibitor in future years.
- The company will not be eligible for participation in future industry-hosted sessions.
- The company will not have access to ancillary meeting space in future years.

Presentation Guidelines

Clinical Trial Showcase presentations are 15-minute corporate presentations that provide an overview of the sponsoring company's clinical trials. Presenting companies are allowed to be commercial companies, non-profit organizations, or contract/clinical research organizations. Clinical Trial Showcases may not solely focus on a specific product or device, whether approved or investigational, unless the presentation will focus on enrollment for a clinical trial. Examples of Clinical Trial Showcase presentations include:

- Business-to-business presentations such as a contract/clinical research organization seeking to showcase their services
- Overview of a clinical trial to assist with recruitment or enrollment

All Clinical Trial Showcase presentations must:

- be tasteful, appropriate, and professional in nature;
- may not solely focus on the clinical benefit or scientific relevance in the development of a product or service of the sponsor or include information on new uses, combinations, or therapies for a product or service.
- Presenter(s) should meet the following criteria:
 - feature one or more **internal staff members** of the sponsor, not outside key opinion speaker or third-party scientists; and
 - represent diversity from a gender, race, ethnicity, and geographic perspective.

Sponsors are not permitted to present any CME/CE educational symposia, sessions, or activities in the showcase and must submit speakers and topics to ASH for approval prior to publicizing the program.

Clinical Trial Showcase presentations shall not include research data or visuals, papers, or abstracts scheduled for presentation during the ASH annual meeting which are under embargo at the time of the presentation. Additional information on the ASH Annual Meeting Embargo Policy can be found [online](#).

Each company is responsible for understanding and following the specific requirements of any code to which they have signed on, the policies within the CMSS Code, and any local, state, and federal laws pertaining to pharmaceutical and medical device manufacturer conduct.

AdvaMed Code of Ethics on Interactions with Health Care Professionals
American Medical Association (AMA) Ethical Opinion on Gifts to Physicians
CMSS Code for Interactions with Companies
PhRMA Code on Interactions with Healthcare Professionals
Physicians Payments Sunshine Act
U.S. Food and Drug Administration (FDA)

It is the responsibility of the exhibiting company to ensure adherence to FDA regulations, policies, practices and guidelines, and all applicable industry guidelines concerning the demonstration, discussion, use and/or display of products, technologies, and/or services as part of the 68th ASH Annual Meeting and Exposition. In addition, ASH encourages participants to verify with their own company's medical affairs/compliance staff for guidelines required by their own companies. Information regarding FDA guidelines should be obtained directly from the FDA.

Each sponsor is solely responsible for the content of its presentation, including obtaining all appropriate copyright permissions and licenses for slides and other materials that will be presented or distributed.

Review and Approval of Topic and Speaker(s)

Participating companies will be required to submit the following to ASH Exhibits Management for review and approval no later than Friday August 28, 2026.

- Title of presentation
- Company speakers' names, designations, titles, and email addresses (for ASH internal use)
- Three to five bullet points that provide a description of the topic/clinical trial to be covered in the theater presentation
- Hematology Taxonomy (Disease Topic and Pathway)

The Clinical Trial Showcase presentation does not include a registration/badge for the speaker(s), panelist(s), moderator or any staff or vendor supporting the presentation. Participating companies should be prepared to arrange and pay for registration, hotel, air fare, and other travel costs for presenters.
