

# Energy Innovation AND Carbon Dividend Act

## THE BIPARTISAN CLIMATE SOLUTION

H.R. 763

This bill will drive down America's carbon pollution and bring climate change under control. It is:

EFFECTIVE

GOOD FOR PEOPLE

GOOD FOR THE ECONOMY

REVENUE NEUTRAL

Republicans and Democrats agree

Charge a fee on fossil fuels at the source  
(mine, refinery, or first pipeline)

Return 100% of net revenue to households as a dividend

This benefits people, the economy, and the environment

### FAMILIES GET PAID

TODAY

\$0  
paid to households  
in carbon dividends

THE FUTURE

**\$3,456**

annual dividend for a family of 4

**\$500**

average extra  
pocket money  
per person  
each year

The money goes back to households as a monthly carbon dividend.

You choose how to spend it.

Which means...

**2.1 million**  
**LOCAL JOBS**  
across  
America

With this policy, most people receive more in carbon dividends than they pay in increased costs for fuel or other products. They will have more money in their wallets to spend in their communities, generating new jobs.

Meanwhile, energy companies and leading industries are motivated to pollute less and save money.

Which means...

### JOBS ARE CREATED

TODAY

\$240 billion  
in annual costs from  
environmental and health  
harms of fossil fuels

THE FUTURE

**2.1 million**

jobs created over 10 years  
in local communities

### A HEALTHIER ENVIRONMENT

TODAY

114,000 lives lost  
each year due to air pollution

THE FUTURE

**295,000** lives saved  
through 2030 because  
of better air quality

less carbon emissions  
over the next 12 years

A carbon fee and dividend will create cleaner air and a stable climate for you and your family.
