Citizens' Climate Lobby

Time to outsmart climate change.

We can do this with a carbon fee and dividend.

We support carbon fee and dividend legislation in the U.S. Congress because we need a big climate change solution that will reduce carbon pollution quickly and on a large scale. It is:

1 Effective

3 Good for the Economy

2 Good for people

4 Bipartisan

Heal Our Democracy

We use respect and appreciation to help Congress find common ground – something our democracy would benefit from these days.
