LEGO® Education Challenge
Patterns with Poetry

LEGO education™

Discuss

How are structures and rules in a poem similar to those in a computer code?

What types of poems are you aware of and what patterns do you notice in that type of poem?

Explore

With support from your teacher, research different structures in poetry. Examine the aspects of poems that follow specific rules, patterns, or a predictable course.

Identify patterns in poems. Consider exploring syllable structures in a haiku or rhyming types.

Design and Build

Use whatever materials you have available to create a pattern that mimics the structure or rules of a poem.

Share

Show off your pattern to your peers. Explain what you created.

Describe how the choices you made represent the structure of a poem.
