

# Remix Challenge – Animal Alarm – Silly Sounds

**Explore** – Check out the [Animal Alarm](#) lesson. Build the model and practice coding. Then, try this remix challenge!

**Remix** means to create a new and different version of something. You can remix a song, a product, or in this case a LEGO® model and code.

**Extend** – Research real animals using books or other materials from your teacher. Record your own animal fun facts and program your alarm to share different facts for each color.

**Challenge** – Can you **remix** your Animal Alarm to include a unique sound for each creature that walks by your camp? Record your own silly sounds, build new creatures, and test your program for each color?

Use the “Record Sound” block for your program.
