

Get Excited for LEGO® Education Summer Camp!

We're thrilled you get to have serious fun with your students this summer and LEGO® Education! To make things easier, we've compiled a list of tips and resources to help you get started.

Step One: Familiarize yourself with your set!

- [LEGO® Education SPIKETM Essential](#)
- [LEGO® Education SPIKETM Prime](#)
- [BricQ Motion Essential](#)
- [BricQ Motion Prime](#)

Step Two: Gather resources!

- Scissors, Markers, and Recycling Bin if you are setting up new kits
- LEGO® Brick Found container for bricks that become separated from sets
- Student devices for SPIKETM sets
- Power Strips or Charging Station for SPIKETM Hubs

Step Three: Setting Up SPIKETM Hubs!

LEGO® Education SPIKETM Essential and LEGO® Education SPIKETM Prime kits contain a motor brick Hub that will need some preparation prior to use.

- Before the first camp session, be sure to charge each of the Hubs and set up a charging station in your activity area. If students connect via Bluetooth, be sure to charge the SPIKETM hubs each day.
- Be sure to update Hub firmware, if needed.
- Determine whether student devices will use the [SPIKETM Webapp](#) or will need to have [SPIKETM App downloaded and installed](#).
- Visit [LEGO® Education SPIKETM Essential](#) or [LEGO® Education SPIKETM Prime](#) for additional information about setting up kits and Hubs.

Step Four: Check out our additional resources!
